EDUCATION

Baderia Global Institute of Engineering and Management

India

Bachelor of Technology (B.Tech) – CGPA: 8.5

EXPERIENCE

High Tech Infosystem

June 2026 – Present

Associate Software Developer

- Converted from internship to full-time Associate Software Developer based on performance; continue to own development of the billing microservice for the live **BroadNet.ai** platform.
- Collaborate with backend, QA, and product teams using **Kafka**, **Kubernetes** and **Docker**-based microservices to ship and maintain features on a production system.

High Tech Infosystem

Feb 2026 – May 2026

Software Development Intern

- Onboarded onto the live **BroadNet.ai** production codebase within the first weeks and began contributing to the billing microservice.
- Built foundational understanding of microservices architecture, REST APIs, and third-party payment gateway integration through hands-on production work.

MBG CARDS

Feb 2025 – June 2025

GMB

- Onboarded onto the live **BroadNet.ai** production codebase within the first weeks and began contributing to the billing microservice.
- Built foundational understanding of microservices architecture, REST APIs, and third-party payment gateway integration through hands-on production work.

PROJECTS

BroadNet.ai | Java, Spring Boot, Microservices, Stripe, Kafka, Docker [Live]

Feb 2026 – Present

- Built and maintained a live, production-grade billing microservice as part of an ongoing real-world platform.
- Integrated **Stripe** for end-to-end payment processing, supporting both **prepaid** and **postpaid** billing workflows.
- Worked within a microservices ecosystem, ensuring reliability and scalability of billing operations in production.

E-Learning Platform | Core Java, Servlets, JSP, MySQL [GitHub]

- Developed a role-based e-learning platform using **Core Java** and **Servlets**, supporting distinct access levels for students and mentors.
- Implemented video-based learning modules along with a mentoring system to facilitate guided, role-specific learning paths.

TECHNICAL SKILLS

Languages: Java, DSA, HTML, CSS, JS

Frameworks & Libraries: Spring Boot, REST APIs, Bootstrap, Hadoop

Tools & Platforms: Docker, Kubernetes, Kafka, CI/CD

Concepts: Microservices Architecture, System Design Basics, Amazon Web Services

CERTIFICATIONS

AWS Cloud Quest: Cloud Practitioner – Amazon Web Services (Hands-on, gamified cloud fundamentals certification)

TRAININGS

TSSC – 5G Advance Competence Training (Networking, Signaling, Hardware, Research)

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- Participated in **Smart India Hackathon (SIH)**, a national-level hackathon initiative by the Government of India.
- Participated in the **Odoo Hackathon**, working on real-world problem-solving challenges.
- Volunteered at the college **Tech Fest** and received the **Best Judge Award** for evaluating technical events.
